Seat and Connection Plate

Exclusively distributed by Plumbing Plus

CI/SfB	(74.4)	n6
Date	October 2009	

Supersedes all previous issues

6.22.1

The Topaz suite features a compact design toilet suite with connector plate for ease of cleaning. The **Topaz Smartflush** cistern uses Caroma Smartflush technology to deliver a 4.5/3 litre dual flush toilet suite system. The **Topaz Smartflush** cistern is an integrated system comprising of cistern, seat and flush fitting connection plate which conceals the flush pipe and water connection. Due to the substantial water saving benefits achieved by the 4 star 4.5/3 litre dual flush system, the matched suites are suitable for multi purpose applications and can be used where authorised for septic installations.

- Cistern:** A one piece injection moulded tank with a well fitting removable lid housing and centrally positioned chrome push buttons.
- Cistern Mechanism:** The cistern incorporates a quiet inlet valve to reduce noise during the filling cycle. The dual flush outlet valve is operated by two clearly marked push buttons which offer the choice of half flush or full flush as required.
- Inlet and Overflow:** Inlet is in the RH position and is located on the underside of the cistern and is interchangeable. Overflow is internal as standard, external overflow kit available.
- Seat:** The **Tasman** Seat and connection plate is supplied with the Topaz Cistern.
- Colours:** White only.
- Dimensions:** All dimensions are in millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
