

Models RBA8121-100 RBA8121-144

Materials & Features

Highly vandal and ligature resistant, this stainless steel shelf is perfect for education, high-traffic commercial and institutional projects. All exposed welds are seamless and ground smooth to match the external finish. Rear fix variant (RBA8121-144) typically requires a plumbing duct for installation.

Installation

Shelves are no stronger than the anchors or walls to which they are attached and must be firmly secured in order to support the loads for which they are intended. Refer to local codes and Installation Instructions for location of fixing points, method of attachment, etc.

Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.

Please note: While RBA takes all reasonable measures to ensure our ligature resistant products consistently perform as advertised, we do not perform load testing on every item. RBA strongly recommends all customers perform their own load testing on each item prior to installation and at regular intervals throughout the life of the product.

RBA does not offer or warrant any of our products as 'anti-ligature' as no product can be truly ligature-free. RBA will not be liable for any claims, losses or damage arising from ligature attachment to our products. It is the responsibility of the purchaser and installer to ensure supplied products are suitable for the environments they are to be installed into.
